**F5-Networks**

**201**

*BIG-IP Administrator*

- A. As long as network communication is not lost, no change will occur.
- B. Nothing. Fail over due to loss of voltage will not occur if the voltage is lost for less than ten seconds.
- C. When the cable is disconnected, both systems will become active. When the voltage is restored, unit two will revert to standby mode.
- D. When the cable is disconnected, both systems will become active. When the voltage is restored, both systems will maintain active mode.

**Answer:** C

**QUESTION:** 92

Where is persistence mirroring configured.

- A. It is always enabled.
- B. It is part of a pool definition.
- C. It is part of a profile definition.
- D. It is part of a virtual server definition.

**Answer:** C

**QUESTION:** 93

Given that VLAN fail safe is enabled on the external VLAN and the network that the active BIGIP's external VLAN is connected to has failed, which statement is always true about the results.

- A. The active system will note the failure in the HA table.
- B. The active system will reboot and the standby system will go into active mode.
- C. The active system will fail over and the standby system will go into active mode.
- D. The active system will restart the traffic management module to eliminate the possibility that BIG IP is the cause for the network failure.

**Answer:** A

**QUESTION:** 94

Where is connection mirroring configured.

- A. It an option within a TCP profile.

- B. It is an optional feature of each pool.
- C. It is not configured; it is default behavior.
- D. It is an optional feature of each virtual server.

**Answer:** D

**QUESTION: 95**

Assuming there are open connections through an active system's virtual servers and a failover occurs, by default, what happens to the connections.

- A. All open connections are lost.
- B. All open connections are maintained.
- C. When persistence mirroring is enabled, open connections are maintained even if a failover occurs.
- D. Long lived connections such as Telnet and FTP are maintained, but short lived connections such as HTTP are lost.
- E. All open connections are lost, but new connections are initiated by the newly active BIG IP, resulting in minimal client downtime.

**Answer:** A

**QUESTION: 96**

How is MAC masquerading configured.

- A. Specify the desired MAC address for each VLAN for which you want this feature enabled.
- B. Specify the desired MAC address for each self IP address for which you want this feature enabled.
- C. Specify the desired MAC address for each VLAN on the active system and synchronize the systems.
- D. Specify the desired MAC address for each floating self IP address for which you want this feature enabled.

**Answer:** A

**QUESTION: 97**

Which action will take place when a failover trigger is detected by the active system.

- A. The active device will take the action specified for the failure.
- B. The standby device also detects the failure and assumes the active role.
- C. The active device will wait for all connections to terminate and then fail over.
- D. The standby device will begin processing virtual servers that have failed, but the active device will continue servicing the functional virtual servers.

**Answer:** A

**QUESTION: 98**

Assuming that systems are synchronized, which action could take place if the standby system is connected correctly and working properly, but the systems cannot communicate over the network due to external network problems.

- A. If network fail over is enabled, the standby system will assume the active mode.
- B. Whether or not network fail over is enabled, the standby system will stay in standby mode.
- C. Whether or not network fail over is enabled, the standby system will assume the active mode.
- D. If network fail over is enabled, the standby system will go into active mode but only until the network recovers.

**Answer:** B

**QUESTION: 99**

A virtual server is defined per the charts. The last five client connections were to members C, D, A, B, B. Given the conditions shown in the above graphic, if a client with IP address 205.12.45.52 opens a connection to the virtual server, which member will be used for the connection.

| VS_Web_Pool Settings |                 | Web_Pool Parameters        |                   |
|----------------------|-----------------|----------------------------|-------------------|
| Destination:         | 10.10.20.100:80 | Load Balancing:            | Least Connections |
| Profiles:            | TCP, HTTP       | Priority Group Activation: | Less Than 2       |
| iRules:              | None            | Monitor:                   | Custom_HTTP       |
| Default Pool:        | Web_Pool        |                            |                   |
| Persistence:         | None            |                            |                   |

  

| Web_Pool Member Statistics and Settings |              |                 |                      |                     |             |
|---|--------------|-----------------|----------------------|---------------------|-------------|
| Member                                  | Member Ratio | Member Priority | Outstanding Requests | Current Connections | Status      |
| A: 172.16.20.1:80                       | 3            | 5               | 4                    | 56                  | Unavailable |
| B: 172.16.20.2:80                       | 2            | 4               | 4                    | 42                  | Available   |
| C: 172.16.20.3:80                       | 3            | 5               | 4                    | 54                  | Unavailable |
| D: 172.16.20.4:80                       | 1            | 3               | 1                    | 22                  | Available   |
| E: 172.16.20.5:80                       | 1            | 1               | 1                    | 18                  | Available   |

- A. 172.16.20.1:80
- B. 172.16.20.2:80
- C. 172.16.20.3:80
- D. 172.16.20.4:80
- E. 172.16.20.5:80

**Answer:** D

# SAMPLE QUESTIONS

*These questions are for demo purpose only. **Full version** is up to date and contains actual questions and answers.*

*Killexams.com is an online platform that offers a wide range of services related to certification exam preparation. The platform provides actual questions, exam dumps, and practice tests to help individuals prepare for various certification exams with confidence. Here are some key features and services offered by Killexams.com:*

**Actual Exam Questions:** *Killexams.com provides actual exam questions that are experienced in test centers. These questions are updated regularly to ensure they are up-to-date and relevant to the latest exam syllabus. By studying these actual questions, candidates can familiarize themselves with the content and format of the real exam.*

**Exam Dumps:** *Killexams.com offers exam dumps in PDF format. These dumps contain a comprehensive collection of questions and answers that cover the exam topics. By using these dumps, candidates can enhance their knowledge and improve their chances of success in the certification exam.*

**Practice Tests:** *Killexams.com provides practice tests through their desktop VCE exam simulator and online test engine. These practice tests simulate the real exam environment and help candidates assess their readiness for the actual exam. The practice tests cover a wide range of questions and enable candidates to identify their strengths and weaknesses.*

**Guaranteed Success:** *Killexams.com offers a success guarantee with their exam dumps. They claim that by using their materials, candidates will pass their exams on the first attempt or they will refund the purchase price. This guarantee provides assurance and confidence to individuals preparing for certification exams.*

**Updated Content:** *Killexams.com regularly updates its question bank and exam dumps to ensure that they are current and reflect the latest changes in the exam syllabus. This helps candidates stay up-to-date with the exam content and increases their chances of success.*

**Technical Support:** *Killexams.com provides free 24x7 technical support to assist candidates with any queries or issues they may encounter while using their services. Their certified experts are available to provide guidance and help candidates throughout their exam preparation journey.*
