#### Question #4 Section 2

The client has finished deploying Avaya Aura® Communication Manager (CM) and has signed a service contract with Avaya for technical support. What should be done by the system administrator in CM to allow Avaya services to login and support the platform?

- A. It is not necessary to do something. Avaya Services can access by default
- B. EASGManage -disableEASG
- C. EASGManage -enableEASG
- D. EASGTurnOn
- E. EASGManage -turnonEASG

**Answer: C**

Reference: <https://downloads.avaya.com/css/P8/documents/101038495>

#### Question #5 Section 2

You are preparing to enable EASG to provide Avaya Services local and remote access for performing support and system optimization. What are the two methods to enable EASG during the implementation? (Choose two.)

- A. During the OVA deployment
- B. Using the CLI command EASGManage after deployment
- C. Open a ticket to Avaya services and request to enable it
- D. Using SMGR web GUI, check the "Enable EASG" check box on the desired component in the Inventory/Manage Elements screen
- E. Using the SDM after the deployment

**Answer: BD**

#### Question #6 Section 2

When comparing two Remote Worker SIP clients, one is an Avaya Communicator soft client and the other is a 96X1SIP hardphone, which statement is true?

- A. Both Avaya Communicator and 96X1SIP clients register with SM via SBCE and receive their SIP Controller List by PPM download.
- B. The Avaya Communicator receives its SIP Controller List via 46xxsettings.txt file download, whereas the 96x1 receives its SIP Controller List by PPM download.
- C. If required, Avaya Communicator and 96X1 clients will automatically upgrade themselves from software stored on the SBCE.
- D. Avaya Communicator registers with SM via SBCE whereas the 96X1 telephone registers with CM via SBCE.

**Answer: B**

#### Question #7 Section 2

You are configuring Shared Bandwidth Management for Call Admission Control (CAC) between Communication Manager (CM) and Session Manager (SM).

Which two tasks must you perform to achieve this? (Choose two.)

- A. Specify the shared bandwidth limit on the Communication Manager (SIP) Entity screen
- B. Create Network Region Groups (NRG) in Communication Manager
- C. Create Locations in Session Manager
- D. Create a Bandwidth Share Group in SM
- E. Match the Network Region used for the SIP users with the Domain in SM

**Answer: AD**

Reference: <https://downloads.avaya.com/css/P8/documents/101008709>

#### Question #8 Section 2

A customer has learned about the benefits of using CAC Sharing and asked you to implement it between the Session Manager (SM) in Main office and Communication Manager located in a branch location.

What are the steps that you must follow to implement CAC Sharing?

- A. In Communication Manager: Configure Network Regions and Network Regions Group, Enable Shared Bandwidth Management. In Session Manager: Configure Location, Assign Bandwidth limits to the location, Enable shared Bandwidth Management for Network Region SIP entity.
- B. In Communication Manager: Configure Network Regions and Network Regions Group, Enable Shared Bandwidth Management. In Session Manager: Configure Location, Assign Bandwidth limits to the Entity Link, Enable shared Bandwidth Management for CM SIP entity.
- C. In Communication Manager: Configure Network Regions and Network Regions Group, Enable Shared Bandwidth Management. In Session Manager: Configure Location, Assign Bandwidth limits to the location, Enable shared Bandwidth Management for CM SIP entity.
- D. In Communication Manager: Configure Network regions and Shared Bandwidth Management Groups. In Session Manager: Configure Location, Assign Bandwidth limits to the location, Enable shared Bandwidth Management for CM SIP entity.

**Answer: A**

#### Question #9 Section 2

Which three statements about media-processing resources (DSPs) are true? (Choose three.)

- A. Two-party calls originated by SIP stations or trunks, and terminated by H.323 trunks, media gateways, or other vendors' H.323 stations, will typically shuffle if CM is configured to do so.
- B. Two-party calls originated by H.323 stations, trunks, or media gateways, and terminated by SIP stations or trunks, cannot shuffle.
- C. SIP-SIP two-party calls will always use SIP Direct Media if Communication Manager (CM) is configured to do so.
- D. H.323-H.323 two-party calls will always shuffle to establish a direct media path if CM is configured to do so.
- E. If a direct media path cannot be established between two IP endpoints the call will fail from release 7.0.

**Answer: BCE**

#### Question #10 Section 2

Which two types of Certificate need to be installed on Communication Manager (CM) in order to successfully establish a TLS connection with Session Manager?

- A. Backup server and default certificates
- B. Site Root certificates and Security certificates
- C. Root or Certificate Authority (CA) and SIP default certificates
- D. Root or Certificate Authority (CA) and CM Server Identity certificates

**Answer: D**

#### Question #11 Section 2

A customer faces a situation in which the SIP endpoints do not register to Session Manager using Transport Layer Security (TLS). A test reveals that the SIP endpoints do register using the Transmission Control Protocol (TCP). While investigating the problem, the company decides to temporarily use the TCP.

What 8D Discipline covers this decision?

- A. D5 Choose Corrective Actions
- B. D4 Root Causes
- C. D2 Describe the Problem
- D. D1 Establish the Team
- E. D3 Containment Actions

**Answer: E**

# SAMPLE QUESTIONS

*These questions are for demo purpose only. **Full version** is up to date and contains actual questions and answers.*

*Killexams.com is an online platform that offers a wide range of services related to certification exam preparation. The platform provides actual questions, exam dumps, and practice tests to help individuals prepare for various certification exams with confidence. Here are some key features and services offered by Killexams.com:*

**Actual Exam Questions:** *Killexams.com provides actual exam questions that are experienced in test centers. These questions are updated regularly to ensure they are up-to-date and relevant to the latest exam syllabus. By studying these actual questions, candidates can familiarize themselves with the content and format of the real exam.*

**Exam Dumps:** *Killexams.com offers exam dumps in PDF format. These dumps contain a comprehensive collection of questions and answers that cover the exam topics. By using these dumps, candidates can enhance their knowledge and improve their chances of success in the certification exam.*

**Practice Tests:** *Killexams.com provides practice tests through their desktop VCE exam simulator and online test engine. These practice tests simulate the real exam environment and help candidates assess their readiness for the actual exam. The practice tests cover a wide range of questions and enable candidates to identify their strengths and weaknesses.*

**Guaranteed Success:** *Killexams.com offers a success guarantee with their exam dumps. They claim that by using their materials, candidates will pass their exams on the first attempt or they will refund the purchase price. This guarantee provides assurance and confidence to individuals preparing for certification exams.*

**Updated Content:** *Killexams.com regularly updates its question bank and exam dumps to ensure that they are current and reflect the latest changes in the exam syllabus. This helps candidates stay up-to-date with the exam content and increases their chances of success.*

**Technical Support:** *Killexams.com provides free 24x7 technical support to assist candidates with any queries or issues they may encounter while using their services. Their certified experts are available to provide guidance and help candidates throughout their exam preparation journey.*
